DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 1/11/06. Examiner further acknowledges the cancellation of claims 6-8 of the previously pending claims and would like to indicate that claims 1, 3-5 & 9-17 remain in the application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney John Muskin on 1/30/06.

The application has been amended as follows:

- In claim 1, line 3 after card please delete **(the "three initial cards")** and insert - - , wherein the players two initial cards and the dealers single initial card comprise three initial cards - -
- In claim 1, line 5, please delete **for a blackjack game**

Allowable Subject Matter

Claims 1, 3-5 & 9-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 1 & 9 including the pre-established set of rules provides a winning side bet for the player only where the sum of the three initial cards is at least 19 and at most 21. This requirement is not seen or fairly suggested by the prior art of record.

The closest prior art of reference was Webb (719). Webb's teachings fail to anticipate or render obvious applicant's invention because it lacked the teaching of a pre-established set of rules providing a winning side bet for the player only where the sum of the three initial cards is at least 19 and at most 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3711

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

Applicant's arguments, filed 1/11/06, have been fully considered and are persuasive. The pending claims are now considered allowable.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
